

6V 4Ah Sealed Lead-Acid Battery

This is a sealed VRLA battery. It is CE and UL approved.

Overview

Reliable Power Solution

The 3FM4 is a sealed rechargeable lead-acid battery engineered for applications that demand a dependable, maintenance-free power source. With its sealed VRLA design, it effectively prevents leaks and spills, ensuring safe operation across various environments. This battery is optimized for constant voltage charging, making it a versatile choice for both cycle and standby use.

Charging Specifications

| Usage Type | Voltage Range |
|-------------|---------------|
| Cycle Use | 7.20-7.50V |
| Standby Use | 6.75-6.90V |

Max Initial Current: 1.35 A

Compliance & Safety

Safety Handling

- Sealed lead-acid construction
- Do not short circuit
- Must be recycled or disposed of properly
- Contains lead (Pb)

Certifications: CE, UL
