

6x4 Heavy Duty Tipper Truck

This heavy-duty tipper truck is designed for demanding construction and mining operations. It features a reinforced suspension system, heavy-duty axles, and a durable hydraulic lifting mechanism for optimal performance in rugged terrains.

Overview

Heavy-Duty 6x4 Tipper Truck

This 6x4 heavy-duty tipper truck is engineered for demanding construction and mining environments, offering a robust solution for large-scale material transport. Built with a high-strength chassis and a powerful 213KW diesel engine, it delivers reliable performance in rugged terrains. The vehicle combines a substantial payload capacity with advanced safety and comfort features, ensuring high productivity and minimal downtime on the job site.

Performance & Powertrain

Engine Specifications

213 KW

Power Output

1160 N.m

Max Torque

Engine Details

Diesel engine, turbocharged, intercooled, 6-cylinder

Maximum Speed

80 km/h

Dimensions & Capacity

Vehicle Dimensions

Dimension	Value (mm)
Length	7721
Width	2500
Height	3510

Weight Metrics

12060 kg

Curb Weight

12810 kg

Payload

25000 kg

Gross Vehicle Weight

Cargo Box Size

5000 x 2300 x 1300 mm

Technical Specs

Wheelbase

3225+1350 mm

Fuel Tank Capacity

350 L

Tires

11.00R20 (Steel wire)

Cabin & Comfort

Interior Features

- Air Conditioning
- AM/FM radio cassette player
- Driver's seat with hydraulic shock absorbers
- Lower sleeping bed
- Rear window curtains
- Tilt steering wheel
- Power windows

Safety & Control

Safety Features

- 3-point seat belts
- Power steering
- Cabin tilting mechanism with hydraulic assist

Braking System

Air brake, Exhaust brake
