

# 6x4m RGB Tricolor LED Star Curtain

This 6x4m RGB LED star curtain features a black backdrop with embedded tricolor LEDs. It is designed to create dynamic star effects for stage performances and events.

## Overview

### Professional Stage Lighting Solution

The 6x4m RGB Tricolor LED Star Curtain is a versatile lighting solution designed specifically for entertainment, stage performances, and large-scale events. Featuring a high-quality black backdrop embedded with dynamic RGB tricolor LEDs, this curtain creates immersive star effects that enhance visual impact. Its robust design is supported by a truss structure, ensuring both stability and ease of installation for professional environments.
