

7 HP Snow Blower with 56 cm Working Width

This snow blower is equipped with a 7 HP engine and has a working width of 56 cm. It offers both manual and electric start options for user convenience.

Overview

High-Performance Snow Removal Solution

This robust 7 HP snow blower is engineered for efficient snow clearance in professional and residential settings. With a 56 cm working width and dual-stage capability, it handles depths of up to 50 cm with ease. The unit features both manual and electric start modes, providing reliability in cold conditions, while the variable 5-forward and 2-reverse gear system ensures precise control.
