Overview

Professional Grade Performance

This 7-inch angle grinder is engineered for heavy-duty cutting, grinding, and finishing tasks. Featuring a robust 2600W motor and advanced soft-start technology, it ensures smooth, controlled operation during demanding applications. Its specialized dust-resistant architecture and oil-leakage prevention systems significantly extend the service life of key internal components, making it a reliable choice for professional environments.

Technical Specifications

Rated Power

2600 W

Power Input

4000 W

Peak Overload Capacity

Model Number

CT13489-180S

Disc Diameter

7 inch

Key Features

Durability Enhancements

- Labyrinth dustproof design for bearing block
- Effective motor coating for dust protection
- Anti-oil leakage O-ring structure

Safety & Operation

Soft Start, Controlled Operation, Kickback Reduction
