Product Overview

General Purpose Grinding Disc

This 7-inch grinding wheel is engineered as a versatile, general-purpose disc suitable for a wide range of metal grinding applications. Constructed with normal grade corundum and a medium-hard bond, it is designed to deliver an optimal balance between aggressive grinding performance and extended disc life. It is a reliable choice for material removal tasks across various metalworking projects.

Technical Specifications

Dimensions

180 mm

Outer Diameter

6 mm

Thickness

22.2 mm

Bore Size

Specification Code	27-A24R6BF
Abrasive Material	Normal grade corundum
Bond Hardness	Medium hard

Performance

Maximum Operating Speed	80 m/s
-------------------------	--------

Compliance & Standards

Compliance Standards	JB/T3715-2006, XK06-011-00480
----------------------	-------------------------------

Applications

Compatible Materials

- Metal
- Steel
