

7-Inch Abrasive Grinding Disc for Steel

This grinding disc is designed for steel grinding applications. It has a 7-inch diameter and can operate at a maximum of 8,600 RPM.

Product Overview

High-Performance Grinding Solution

This 7-inch abrasive grinding disc is engineered for aggressive stock removal and extended service life in demanding steel applications. Featuring virgin aluminum oxide grain and high-quality internal fiberglass reinforcement, it provides consistent performance for weld dressing and deburring. Designed as a Type 27 depressed center wheel, it meets all relevant safety standards for professional angle grinder use.

Technical Specifications

Maximum RPM

8600 RPM

Max Speed

Diameter	180 mm
Thickness	6 mm
Bore Size	22.23 mm
Wheel Type	Type 27 (Depressed Center)

Material & Construction

Abrasive Grain	Virgin Aluminum Oxide
Reinforcement	High-quality fiberglass

Application & Safety

Primary Applications

- Grinding
- Weld dressing
- Deburring

Compatible Materials	Steel, Metal
----------------------	--------------

Origin

Manufacturing Origin	China
