

7-Inch Corded Angle Grinder with 8500 RPM

This 7-inch angle grinder is a robust and powerful corded power tool designed for cutting and grinding applications. It features a high-performance motor delivering up to 8500 RPM for efficient material removal and precise cutting.

Overview

High-Performance 7-Inch Angle Grinder

This robust 7-inch corded angle grinder is engineered for demanding cutting and grinding applications. It features a high-performance motor capable of delivering 8500 RPM for efficient material removal and precision. Designed with user comfort in mind, it includes a lock-on switch for extended operation and advanced dustproofing to ensure long-term reliability and durability in tough working environments.

Technical Specifications

Rated Speed

8500 RPM

No-Load Speed

Overload Capacity

4000 W

Disc Size

7 inches

Features & Construction

Durability Features

- Labyrinth dustproof design on bearing block
- Effective coating for motor dust protection
- Anti-oil leakage structure with O-ring

Usability

Lock-on function, Extended work mode support, Ergonomic design
