Overview

High-Performance Grinding Wheel

This 7-inch grinding wheel is engineered for efficient material removal and consistent surface preparation on metal and steel workpieces. Designed with a durable abrasive grain specification, it ensures reliable performance and longevity in demanding grinding applications. The wheel meets strict industrial standards, providing professional-grade results for heavy-duty metalworking tasks.

Dimensions & Physical Properties

Diameter	180 mm
Thickness	6 mm
Arbor Hole Diameter	22.2 mm

Performance Specs

Maximum Operating Speed

80 m/s

Max Speed

Abrasive Grain Specification	A24R6BF
------------------------------	---------

Compliance & Standards

Standards & Certifications	JB/T3715-2006, MPA Certified, CCIC Certified
----------------------------	--

Application

Suitable Materials

- Metal
- Steel
- Stone
