

7 inch Grinding Wheel for Stone

This 7-inch grinding wheel is suitable for cutting natural and artificial stone. It is made of semi-precious corundum and features high-quality silicon carbide grains.

Product Overview

A 7-inch grinding wheel designed for efficient material removal and surface finishing on stone surfaces.

Professional Stone Grinding Disc

This 7-inch grinding wheel is engineered specifically for high-performance cutting and grinding applications on both natural and artificial stone. Featuring a medium-hard bond and high-quality abrasive grains, it delivers efficient material removal and a smooth finish. Designed for durability and safety, this disc is suitable for demanding professional stone processing tasks.

Technical Specifications

Dimensions	180 x 6 x 22.2 mm (7 x 1/4 x 7/8 inches)
Maximum RPM	8500 RPM
Maximum Speed	80 m/s
Minimum Machine Power	3 kW

Performance & Composition

Abrasive Material	Silicon Carbide
Bond Type	Medium Hard
Suitable Materials	Natural Stone, Artificial Stone

Compliance & Safety

Safety Standards EN 12413 • BGV D12	
Certifications	ISO 9001, MPA Z-04889
