Overview

Reinforced cut-off wheel design for high-speed metal and stainless steel cutting.

High-Performance Cutting Solution

These reinforced resin cutting wheels are engineered for fast, efficient cutting of metal and stainless steel. Designed for professional metalworking applications, they offer a high cost-to-performance ratio, making them an ideal choice for budget-conscious buyers who do not want to compromise on quality. The discs are built for durability and consistent cutting action in demanding industrial environments.

Technical Specifications

Details
D: 180 mm | T: 2 mm | Bore: 22.2 mm | Max RPM: 7600

Product Description of ERK Cutting Disc
High Cost-Effective
Fast in Cutting
For metal and inox
