Product Overview

High-Performance Metal Grinding

This 7-inch depressed center grinding wheel is engineered for superior material removal and extended operational life. Designed specifically for metalworking applications, it provides excellent durability and cutting performance to improve work efficiency while reducing production costs. It is an ideal solution for weld grinding, deburring, and surface preparation tasks.

Technical Specifications

Dimensions

180 mm

Diameter

6.4 mm

Thickness

22.2 mm

Bore Size

Operating Limits

8490 RPM

Max Speed

80 m/s

Max Peripheral Speed

Compliance and Grade

Safety Standards

EN12413

Abrasive Grade

A24R4BF

Usage Information

Compatible Machines

- Angle Grinder

Key Applications

Weld Grinding • Deburring • Surface Preparation • Metalworking
