Product Overview

Professional Pruning Scissors

These 7-inch pruning scissors are designed for precision and efficiency in gardening and landscaping tasks. Featuring durable 3cr13 stainless steel blades, they ensure clean, high-quality cuts for stems, foliage, and small branches. The ergonomic polypropylene handle construction is built to reduce hand fatigue during extended use, making these ideal for both professional and residential gardening.

Technical Specifications

Blade Material	3cr13 Stainless Steel
Handle Material	Polypropylene (PP)
Total Length	7 inches

Features

Key Operational Features

- Spring-loaded mechanism for smooth operation
- Integrated locking mechanism for safe storage
- Ergonomic handle design to minimize fatigue

Application

Applications	Gardening, Landscaping, Agricultural Use
