

# 7-Inch Two-Wire Video Intercom Indoor Monitor

This 7-inch indoor monitor is designed for two-wire video intercom systems. It provides remote unlocking, monitoring, and intercom functions for enhanced building security.

## Product Overview

### Professional Two-Wire Video Intercom Solution

This 7-inch color indoor monitor is a robust component designed for building video intercom and access control systems. Utilizing efficient two-wire connectivity, it simplifies installation while providing reliable video door entry capabilities. The system supports essential security functions including remote unlocking, live monitoring, and clear two-way communication to enhance building security.

## Technical Specifications

Display Size	7 inch
Connectivity	Two-wire
Model Identifier	RL-617C07

## Key Features

Core Functionalities	Remote Unlock, Live Monitoring, Two-way Intercom, Color Video
----------------------	---

## Applications

### Suitable For

- Building Security
- Access Control
- Video Door Entry Systems
