

7-Inch Variable Speed Car Polisher

This 7-inch polisher is designed for automotive detailing and surface finishing. It features variable speed control and includes a polishing pad for immediate use.

Overview

Professional Grade Polishing Performance

This high-performance 7-inch (180mm) polisher is engineered specifically for automotive detailing and precision surface finishing. Featuring a powerful 600W motor, it efficiently removes scratches, swirl marks, and oxidation to restore a glossy, showroom-quality finish to painted surfaces. The ergonomic design and variable speed control ensure user comfort and allow for precise adjustments across various materials and applications.
