

7-Liter Thermoelectric Cooler and Warmer

This thermoelectric device functions as both a cooler and a warmer with a 7-liter capacity. Temperature is adjustable between 5-60°C and it can be powered by AC or DC.

Product Overview

Versatile Thermal Control

This 7-liter thermoelectric cooler and warmer offers a flexible solution for keeping beverages and food at the perfect temperature. With adjustable settings ranging from 5°C to 60°C, it is ideal for maintaining items cold or warm as needed. Designed for versatility, it supports both AC and DC power inputs, making it an excellent companion for home, office, car, or outdoor camping use.
