Product Overview

Professional 7-Pin Trailer Connection

This 7-pin 12V connector system is the industry standard for electrical connections between trucks and semi-trailers in the commercial vehicle sector. Designed for reliability and durability, it features a weatherproof housing and corrosion-resistant pins to ensure consistent performance. It supports all critical trailer functions, including tail lights, brake lights, turn signals, and auxiliary power, making it an essential component for safe towing operations.

Technical Specifications

Number of Pins	7
System Voltage	12 V
Compliance Standards	ISO 1185 (Type N), ISO 3731 (Type S)

Design & Construction

Protection Features

Weatherproof • Corrosion-resistant pins • Spring-loaded cover

Included Components

- 7-Pin Connector
- Junction box for wiring
- Spring-loaded protective cover

Housing Material	Durable black plastic
------------------	-----------------------

Applications

Supported Functions

- Tail lights
- Brake lights
- Turn signals
- Reverse lights
- Auxiliary power
