

7 x 1/2 x 1 1/4 inch Grinding Wheel - 39C120 Grit

This grinding wheel measures 7 x 1/2 x 1 1/4 inches. It features 39C120 grit and is designed for material removal and surface finishing.

Product Overview

High-Performance Silicon Carbide Grinding Wheel

This 7-inch grinding wheel is engineered with black silicon carbide abrasive, specifically formulated for the efficient grinding of low tensile strength materials. It is an ideal choice for working with gray cast iron, non-ferrous metals, and non-metallic surfaces. Furthermore, its specialized composition makes it highly effective for precision tasks involving stone, ceramics, glass, and refractory silicate materials.

Technical Specifications

Dimensions

7 inch

Diameter

0.5 inch

Thickness

1.25 inch

Arbor Hole

Grit Specification

39C120

Abrasive Material

Black Silicon Carbide

Applications

Compatible Materials

Gray Cast Iron, Non-ferrous Metals, Stone, Ceramics, Glass, Refractories, Silicates
