Product Overview

High-Performance Grinding Wheel

This aluminum oxide grinding wheel is engineered for efficient material removal and consistent performance. It is specifically designed for rough grinding applications, making it an ideal choice for working with carbon steel, general steel, malleable cast iron, and hard bronze. Its durable construction ensures extended wheel life and optimal cutting action for shaping and finishing tasks.

Technical Specifications

Outer Diameter	7 inch
Thickness	0.5 inch
Center Hole Diameter	1.25 inch
Abrasive Material	Aluminum Oxide

Application Suitability

Primary Usage

- Rough Grinding
- Shaping
- Sharpening
- Finishing

Compatible Materials	Carbon Steel, General Steel, Malleable Cast Iron, Hard Bronze
