

7 x 1/4 x 1 1/4 inch Aluminum Oxide Grinding Wheel

This grinding wheel measures 7 x 1/4 x 1 1/4 inches. It is constructed from pink aluminum oxide for effective grinding.

Product Overview

Precision Grinding Performance

This Pink Aluminum Oxide grinding wheel is engineered for high-precision tasks, including the sharpening of cutting and measuring tools. It offers superior performance and durability, particularly when grinding hardened steel components. Designed for consistent, smooth material removal, this wheel minimizes heat buildup to ensure the integrity of your workpieces.

Technical Specifications

Outer Diameter	7 inch
Thickness	0.25 inch
Arbor Hole	1.25 inch
Abrasive Material	Pink Aluminum Oxide

Application Suitability

Ideal Equipment

- Tool and Cutter Grinders
- Surface Grinders
- Bench Grinders

Compatible Materials

Hardened Steel, Cutting Tools, Measuring Tools
