Overview

The QLN704 offers a balance of power and ergonomic control for modern farming.

Robust Agricultural Performance

The QLN704 is a powerful 70HP 4WD wheel tractor engineered for diverse farming tasks including plowing, tilling, and heavy hauling. It features a reliable vertical water-cooled engine and a versatile F12+R12 transmission system to ensure optimal efficiency in the field. Designed with operator comfort in mind, it includes a well-equipped cabin and independent dual-function clutch for precise implement control.
