

# 71.4V 6A Lithium-Ion Battery Charger for Electric Scooters

This lithium-ion battery charger delivers 71.4V for 17S battery configurations with a 6A charging current. It is designed for maintaining and replenishing the energy of electric vehicles, ensuring optimal performance and longevity of the battery system.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Charging Solution

This 71.4V 6A charger is engineered for reliable performance with electric motorcycles, scooters, and e-bikes. Designed with a durable aluminium alloy housing, it offers efficient heat dissipation and robust protection for long-term use. The unit is compatible with various battery chemistries including Li-ion, LiFePO4, and lead-acid, making it a versatile choice for diverse electric vehicle maintenance needs.

## Technical Specifications

### Performance Metrics

<b>71.4 V</b> Output Voltage	<b>6 A</b> Charging Current	<b>500 W</b> Output Power
---------------------------------	--------------------------------	------------------------------

### Input Voltage Range

- 110-132VAC
- 200-264VAC

### Compatible Chemistries

Li-ion, LiFePO4, Lead Acid

## Physical Characteristics

### Physical Specs

Attribute	Value
Dimensions	173 x 90 x 63 mm
Net Weight	1.1 kg
Housing Material	Aluminium Alloy

## Compliance & Support

### Certifications

CE

### Warranty

12 Months

### Primary Applications

Electric Motorcycle, Scooter, E-bike
