Product Overview

High-Performance Electric Vehicle Charging

This versatile 600W battery charger is engineered for reliable power delivery to electric motorcycles, scooters, and e-bikes. Designed with a robust aluminium alloy housing, it ensures efficient heat dissipation and durability for demanding daily use. The unit supports multiple battery chemistries, including Li-ion, LiFePO4, and lead-acid, making it a flexible solution for diverse electric vehicle fleets.

Technical Specifications

Output Voltage & Current

71.4 V
Voltage

9 A
Current

Output Power

600 W

Input Voltage Range

110-132VAC, 200-264VAC

Compatibility

Compatible Battery Chemistries

Li-ion • LiFePO4 • Lead Acid

Target Applications

- Electric Motorcycle
- Electric Scooter
- E-bike

Physical & Compliance

Certifications

CE
