

7.4V 2600mAh Li-Polymer Battery

This is a Li-Polymer battery with a voltage of 7.4V. It has a capacity of 2600mAh, providing 19.24Wh of energy.

Overview

High-Performance Li-Polymer Power Solution

This 7.4V Li-Polymer battery is designed for reliable energy delivery, offering a capacity of 2600mAh and a total energy output of 19.24Wh. Engineered for versatility, it supports customization to meet specific customer requirements. The unit is fully compliant with international safety standards, ensuring dependable performance for professional applications.
