

7.5 Meter Steel Measuring Tape

This steel measuring tape is designed for accurate measurements. It features a retractable steel blade with clear markings, a robust casing, a belt clip, and a locking mechanism.

Product Overview

Professional Grade Measuring Tool

This 7.5-meter steel measuring tape is engineered for durability and precision in professional environments. It features a robust protective casing and a convenient magnetic hook, making it ideal for solo measurements. With its high-visibility markings and reliable locking mechanism, this tool provides accuracy and efficiency for construction, carpentry, and various industrial applications.

Technical Specifications

Tape Length	7.5 m
Blade Width	25 mm

Features

Magnetic Hook	Yes
Locking Mechanism	Yes
Convenience Features	Belt Clip, Retractable Blade, Robust Casing

Applications

Recommended Uses

- Construction
- Carpentry
- General Maintenance
- DIY Projects
