

7500kg Capacity Digital Crane Scale

This crane scale is designed for heavy-duty industrial weighing applications with a capacity of 7500kg. It features a durable load cell and a bright LED display, and includes a remote control.

Overview

Industrial Precision Weighing

This high-precision digital crane scale is engineered for heavy-duty industrial environments, offering a maximum weighing capacity of 7500kg. Designed for reliability in demanding locations like warehouses, factories, and construction sites, it features robust construction paired with a high-durability load cell. The integrated bright LED display ensures visibility under various lighting conditions, while the included remote control facilitates safe and convenient operation.

Capacity

Features

Key Features

- High-precision load cell
- Bright LED display
- Remote control operation
- Heavy-duty industrial design

Applications

Recommended Environments

Warehouse, Manufacturing Facility, Construction Site
