

# 7.5kW Inverter Silent Generator

This inverter generator delivers 7.5kW of power. It features multiple AC outlets and CO detection for safety.

## ADDITIONAL IMAGES

## Overview

### Professional Silent Inverter Generator

This 7.5kW inverter generator provides clean and stable power, ensuring safety for sensitive electronics with a total harmonic distortion (THD) of less than 3%. Engineered for ultra-quiet operation at 63dBA, it is ideal for residential and commercial environments where noise control is critical. Its advanced economy system automatically adjusts engine speed based on load and temperature, significantly reducing fuel consumption.

## Performance

### Rated Power Output

**7.5 kW**

Continuous Output

### Noise Level

63 dBA

## Features

### Integrated Technologies

Inverter Technology, Economy System, CO Detection, Low Idle Mode

## Connectivity

### Optional Connectivity & Controls

- Remote Control
- One-Button Push Start
- Automatic Transfer Switch (ATS)
- USB Output
- Parallel Operation

## Electrical

### Voltage Configuration

120V • 240V • Dual Voltage
