

75L Capacity Garden Cart with Flat-Free Tires

This garden cart has a 75L capacity and can handle loads up to 400lbs, making it suitable for a variety of gardening tasks. It is equipped with flat-free tires for smooth movement across various terrains.

Product Overview

Robust Garden Utility Cart

This durable 75L capacity garden cart is designed for efficient material transport across residential and commercial outdoor environments. Featuring a rust-free, easy-to-clean poly tray and advanced flat-free tire technology, it ensures reliable performance during demanding landscaping tasks. The unit is engineered for both static and dynamic weight loads, providing a versatile solution for hauling soil, gravel, mulch, and sand.

Performance Specifications

Performance Metrics

75 L

Tray Volume Capacity

3 cu ft

Cubic Feet Capacity

Static Capacity	400 lbs
Dynamic Capacity	200 lbs
