

7.9mm Medical Stainless Steel Keyed Chuck 1JT Mount

This 7.9mm keyed chuck is made from medical-grade stainless steel. It features a 1JT mount and includes a K1M chuck key.

Product Overview

Medical-Grade Precision Chuck

This medical-grade stainless steel keyed chuck is engineered for precision drilling applications in demanding environments. Designed with superior anti-corrosion and anti-rust properties, it ensures longevity and hygiene in medical, dental, and laboratory settings. Its stainless steel construction also provides spark prevention, making it a reliable choice for specialized operational requirements.
