

8 1/2" Steel Body PDC Drill Bit

This 8 1/2" steel body PDC drill bit is designed for drilling applications. Its robust steel body construction provides durability, while strategically placed PDC cutters ensure optimal cutting efficiency and extended bit life.

Product Overview

High-Performance Steel Body PDC Drill Bit

This 8 1/2 inch steel body PDC drill bit is engineered for efficient drilling in soft to medium formations. Featuring a robust 5-blade design equipped with 19mm cutters, it is optimized for durability and consistent cutting performance. It is an ideal solution for drilling through materials such as clay, marl, lignite, sands, silt, and anhydrite.

Technical Specifications

Bit Size	8.5 inch
Number of Blades	5
Cutter Size	19 mm

Application

Suitable Formations	Clay, Marl, Lignite, Sands, Silt, Anhydrite
---------------------	---

Construction

Body Material	Steel
