

8-Inch Borehole Submersible Water Pump

This submersible pump is designed for water supply from wells and reservoirs. It is suitable for domestic, civil, industrial, garden, and irrigation applications.

Overview

High-Performance Submersible Solution

This 8-inch borehole submersible pump is engineered for reliable water supply from deep wells and reservoirs. Designed for versatility, it supports a wide range of domestic, civil, and industrial applications. With robust construction meeting NEMA dimension standards, it ensures consistent performance and longevity in demanding water extraction environments.

Operating Conditions

Maximum Fluid Temperature	35 °C
Maximum Sand Content	0.25 %
Maximum Immersion Depth	100 m
Minimum Well Diameter	8 inch

Technical Specifications

Motor Type

- Rewindable motor
- Hermetically-Sealed motor

Electrical Standards

380 V Voltage Low	415 V Voltage High	50 Hz Frequency
-----------------------------	------------------------------	---------------------------

Starting Methods

- Direct start (1 cable)
- Star-delta start (2 cables)

Certifications & Compliance

Compliance & Standards

ISO 9906 • NEMA Standard • CE • RoHS • ISO 9001 • GS • CCC

Warranty & Options

Customization Options

- Special mechanical seal
- Other voltages
- 60 Hz frequency

Warranty

2 years
