

8-Inch Pruning Shear

This pruning shear is designed for efficient and precise cutting of branches and stems. Its durable steel blade ensures long-lasting sharpness and clean cuts.

Product Overview

High-Performance Pruning Shear

This 8-inch pruning shear is engineered for professional-grade efficiency and precision in gardens and orchards. Featuring a durable steel blade, it ensures clean, healthy cuts that promote plant growth through a bypass cutting action. The ergonomic design focuses on user comfort, effectively reducing hand fatigue during extended pruning sessions.

Technical Specifications

Blade Action	Bypass
Cutting Capacity	8 inches

Features & Safety

Safety Mechanisms

- Locking mechanism for safe storage

Ergonomic Design

Comfort Grip • Fatigue Reduction

Material	Durable Steel
