

8-Inch Steel Blade Pruning Shear

This 8-inch pruning shear is designed for efficient and precise cutting of branches and stems. It features a durable steel blade and ergonomic handles for comfortable use during gardening and landscaping.

Product Overview

Professional 8-Inch Pruning Shear

This high-quality 8-inch pruning shear is engineered for efficient and precise cutting of branches and stems. Designed with a durable steel blade, it ensures long-lasting performance and reliable sharpness for demanding tasks. The ergonomic handle design provides a comfortable grip, significantly reducing hand fatigue during extended use in gardening and landscaping applications.

Technical Specifications

Blade Material	Steel
Tool Length	8 inch

Usage & Applications

Key Features

- Durable steel blade construction
- Ergonomic handle design
- Reduced hand fatigue
- Precision cutting performance

Primary Applications	Gardening, Landscaping, General Pruning
