

8-Inch Submersible Borehole Pump

This submersible borehole pump is designed for water supply from wells and reservoirs. It is suitable for domestic, civil, industrial, garden, and irrigation applications.

Overview

High-Performance Submersible Borehole Pump

This 8-inch submersible borehole pump is engineered for reliable water supply from wells and reservoirs. Designed for versatility, it is suitable for a wide range of domestic, civil, and industrial applications, including garden irrigation systems. With its robust construction and compliance with NEMA dimension standards, this pump offers consistent performance even in demanding environments.

Technical Specifications

Minimum Well Diameter	8 inch
Maximum Fluid Temperature	35 °C
Maximum Sand Content	0.5 %
Maximum Immersion Depth	100 m

Electrical Systems

Motor Options

- Rewindable motor
- Hermetically-Sealed motor

Starting Methods

- Direct start (1 cable)
- Star-delta start (2 cables)

Voltage Range	380V - 415V
Frequency	50 Hz

Compliance & Warranty

Certifications	ISO 9906, CE, RoHS, GS, ISO 9001
Warranty Period	2 years
