

8-Inch Submersible Borehole Pump

This submersible pump is designed for water supply from wells or reservoirs. It is suitable for domestic, civil, industrial, garden, and irrigation applications.

Overview

High-Performance Submersible Pumping

This 8-inch submersible borehole pump is engineered for reliable water supply in domestic, civil, and industrial applications. It is designed to handle demanding environments, offering robust performance for deep wells, garden irrigation, and water extraction systems. Built to NEMA dimension standards, this pump ensures compatibility and long-lasting durability for professional water management needs.

Operating Conditions

Maximum Fluid Temperature	35 °C
Maximum Sand Content	0.25 %
Maximum Immersion Depth	100 m
Minimum Well Diameter	8 inch

Technical Specifications

Starting Methods

- Direct start (1 cable)
- Star-delta start (2 cables)

Standards & Certifications

NEMA Standard • ISO 9906 • CE • RoHS • ISO 9001 • CCC • GS

Motor Options	Rewindable motor, Hermetically-Sealed motor
Power Supply	380V - 415V / 50Hz

Warranty & Support

Warranty	2 years
