

8-Inch Submersible Borehole Water Pump

This submersible pump is designed for water supply from wells or reservoirs. It is suitable for domestic, civil, industrial, garden, and irrigation applications.

Overview

High-Performance 8-Inch Submersible Pump

This 8-inch submersible borehole pump is engineered for reliable water supply in domestic, civil, and industrial applications. Designed for deep well and reservoir water extraction, it offers robust construction and efficient operation even in demanding environments. The unit supports versatile installation options and adheres to NEMA dimension standards, ensuring compatibility and longevity.

Operating Conditions

Maximum Fluid Temperature	35
Maximum Sand Content	0.25 %
Maximum Immersion Depth	100 m
Minimum Well Diameter	8 inches

Technical Specifications

Motor Type

- Rewindable motor
- Hermetically-Sealed motor

Starting Methods

- Direct start (1 cable)
- Star-delta start (2 cables)

Voltage	380V - 415V
Frequency	50 Hz

Compliance & Standards

Standards

NEMA Standard • ISO 9906 Curve Tolerance

Certifications	CE, ISO 9001, RoHS, CCC, GS
----------------	-----------------------------

Support & Warranty

Warranty Period	2 years
