

8-Inch Submersible Borehole Water Pump

This submersible pump is designed for water supply from wells and reservoirs. It is suitable for domestic, civil, industrial, garden, and irrigation applications.

Product Overview

High-Efficiency Submersible Borehole Pump

This 8-inch submersible borehole pump is engineered for reliable water supply from deep wells and reservoirs. It is suitable for a wide range of domestic, civil, and industrial applications, including agricultural irrigation and drainage. Designed to meet NEMA dimension standards, this unit offers robust performance and flexibility for demanding water extraction needs.

Operating Conditions

Maximum Fluid Temperature	35 °C
Maximum Sand Content	0.5 %
Maximum Immersion Depth	100 m
Minimum Well Diameter	8 inch

Technical Specifications

Voltage

- 380V - 415V

Standards & Compliance

NEMA Standards • ISO 9906

Motor Type	Rewindable, Hermetically-Sealed
Frequency	50 Hz
Warranty	2 years

Installation & Control

Starting Methods

Method	Cables Required
Direct start	1
Star-delta start	2
