

8-Inch TFT LCD Monitor

This 8-inch TFT LCD monitor features an active matrix display. It delivers crisp and clear images with excellent color reproduction and wide viewing angles.

Product Overview

Professional 8-Inch TFT LCD Display

This 8-inch TFT LCD active matrix monitor provides a compact and versatile display solution for professional applications. Engineered for crisp, high-resolution imagery, the unit utilizes advanced active matrix technology to ensure excellent color reproduction and wide viewing angles. It is designed for seamless integration into vehicle systems, security monitoring setups, or as a reliable secondary display for computing environments.

Technical Specifications

Display Size	8 inch
Panel Technology	TFT LCD Active Matrix

Applications

Primary Applications	Vehicle Systems, Security Monitoring, Secondary Display, Compact Industrial
----------------------	---

Performance Features

Core Benefits

- High-resolution imaging
- Excellent color reproduction
- Wide viewing angles
- Reliable industrial performance
- Easy system integration
