

8 oz Stubby Claw Hammer with Fiberglass Handle

The stubby claw hammer is a compact hand tool designed for hammering tasks in tight spaces. It features an 8-ounce hardened steel head and a shock-absorbing fiberglass handle.

Product Overview

Compact Power for Tight Spaces

This 8 oz stubby claw hammer is engineered for precision and efficiency in confined work areas where standard hammers cannot reach. Featuring a durable carbon steel head and a shock-absorbing fiberglass handle, it balances striking power with user comfort. The corrosion-resistant finish ensures longevity, making it an essential addition to any professional toolkit for repairs and general construction.
