8 x 25FI+FC Linear Contact Wire Rope

This high-strength linear contact lay wire is designed for demanding industrial applications. Featuring an 8 x 25FI+FC construction and fiber core, it offers exceptional flexibility and durability for lifting, hoisting, and rigging.

Product Overview

High-Performance Linear Contact Wire Rope

This 8 x 25FI+FC linear contact lay wire is engineered for demanding industrial applications requiring high strength and durability. The linear contact design significantly minimizes wear between strands, effectively maximizing service life in rigorous environments. Featuring a fiber core (FC), this wire rope offers superior flexibility and reduced internal friction, making it an ideal solution for lifting, hoisting, and heavy machinery operations.

Technical Specifications

Construction	8 x 25FI+FC
Core Type	Fiber Core (FC)
Lay Type	Linear Contact

Applications

Recommended Applications	Lifting, Hoisting, Rigging, Cranes, Elevators
