

# 800 kg Electric Hoist with Limit Device

This electric hoist is designed for lifting heavy loads up to 800kgs. It features an up and down limit device for enhanced safety and operational control.

## ADDITIONAL IMAGES

## Product Overview

### High-Capacity Electric Hoist

This 800 kg electric hoist is engineered for demanding industrial and construction environments where reliable lifting is essential. It features a robust motor and a comprehensive safety system, including up and down limit devices and an emergency stop switch. Designed for professional use, this unit combines efficient power with enhanced operational control to ensure consistent performance under load.

## Performance Specifications

### Load Capacity

**800 kg**

Max Lifting Capacity

## Safety & Compliance

### Safety Mechanisms

- Emergency stop switch
- Reinforced breaking switch
- Up and down limit device
- Thermal protection device

### Certifications

CE, GS, EMC, RoHS

## Technical Details

### Protection Class

IP54
