

800kW 1000kVA Diesel Generator Set

This diesel generator set delivers 800kW of continuous power and 1000kVA of apparent power. Equipped with an advanced control system, it ensures safe and efficient operation for prime power, standby power, and peak shaving applications.

Overview

High-Performance Power Generation

This diesel generator set offers a robust power solution capable of delivering 800kW of continuous power and 1000kVA of apparent power. Engineered for reliability, it is suitable for diverse applications including industrial facilities, data centers, hospitals, and critical infrastructure. The unit features advanced monitoring and control systems, ensuring stable and efficient power output in prime, standby, or peak shaving scenarios.

Technical Features

System Capabilities

- High-capacity cooling system
- Advanced control panel for monitoring and diagnostics
- Automatic start/stop functionality
- Remote monitoring capabilities
- Sound-attenuated enclosure options
- Heavy-duty base frame construction

Suitable Applications

Industrial Facilities, Data Centers, Hospitals, Critical Infrastructure, Standby Power, Prime Power, Peak Shaving
