Product Overview

Versatile Kitchen Performance

This 4-in-1 multifunctional food processor is designed to streamline kitchen efficiency with a robust 800W motor. It seamlessly combines juicing, blending, chopping, and grinding capabilities into one durable stainless steel unit. Featuring a large 75mm feed tube and multiple container options, this appliance is engineered to handle a wide variety of food preparation tasks with precision and reliability.

Performance & Power

Rated Power

800 W
Max Power

Electrical Requirements

AC220-240V, 50/60HZ

Speed Control

2 Speed Settings, Pulse Function

Capacity & Components

Container Capacities

Component	Capacity
Juice Jar	1000ml
Blending Jar	1500ml
Pulp Container	2.0L
Food Chopper	500g
Dry Mill (Grinder)	60g

Design & Build

Construction Materials

Stainless Steel Housing • Stainless Steel Blade • Stainless Steel Filter

Feed Tube Diameter

75 mm

Safety & Stability

Safety Features

- Built-in safety system
- Anti-slip feet
