

# 800W Vacuum Cleaner with 18.5Kpa Suction

This vacuum cleaner operates at 230V with a frequency of 50/60Hz and consumes 800W of power. It delivers a vacuum suction of 18.5Kpa while maintaining a noise level of less than 84dB.

## Overview

### High-Efficiency Cleaning Performance

The XC9001 vacuum cleaner is a robust solution designed for professional and residential cleaning environments. With an 800W motor providing 18.5Kpa of suction power, it ensures effective debris removal while maintaining operational efficiency at 230V. This model is engineered for reliability and safety, supported by internationally recognized certifications.
