

80mm 0.75kW 220V AC Servo Motor

This 80mm servo motor provides 0.75kW of power and operates at 220V. It is designed for precise motion control in applications such as robotics and CNC machinery.

Product Overview

High-Performance 80mm Servo Motor

This 0.75kW AC servo motor is engineered for precision motion control in demanding industrial environments. Featuring a compact 80mm frame size, it provides a balance of high torque density and reliability. It is an ideal solution for applications requiring accuracy, such as robotics, CNC machinery, and advanced electronic manufacturing equipment.
