

# 80mm Black Steel Pressure Gauge with Flange Mount

This 80mm pressure gauge features a durable black steel case for protection in harsh environments. It includes a flange with 3 mounting holes and a lower back mount for easy installation.

## ADDITIONAL IMAGES

## Product Overview

### Industrial Pressure Monitoring

This 80mm pressure gauge is engineered for durability and precise pressure measurement in diverse industrial environments. Constructed with a robust black steel case and a specialized three-hole flange mount, it offers secure installation and reliable performance. Suitable for various media, this gauge supports custom connection types and pressure ranges to meet specific system requirements.

## Core Specifications

Dial Size	80mm
Mounting Configuration	Lower Back Mount with 3-Hole Flange
Accuracy Class	1.5
Pressure Range	-1 to 1000 bar

## Construction

### Internal Components

Component	Available Materials
Movement	SS304, Brass
Connection	SS316, SS304, Brass
Bourdon Tube	SS316, Phosphor Bronze
Case Material	Black Steel
Window Material	Glass, Tempered Glass, Safety Glass, PC Glass, Acrylic

## Options

### Operating Type

Liquid Filled • Dry Type

### Supported Threads

PT, NPT, G
