Product Overview

Integrated Solar Lighting Solution

This 80W integrated solar street light combines a high-efficiency solar panel, LED light source, and lithium battery into a single, sleek unit. Designed for outdoor environments like roads, gardens, and resorts, it features an intelligent microwave induction system for automatic operation. The durable ABS construction ensures weather resistance, while its all-in-one design allows for convenient installation without the need for external wiring.

Technical Specifications

Power Rating	80 W
Lighting Technology	LED
Housing Material	ABS

Features

Installation Notes

- No external wiring required
- Includes installation bracket
- Lamp pole not included

Intelligent Features

Microwave Induction, Automatic Day/Night Switching, Motion Sensing, Energy Saving

Applications

Ideal Use Cases

Roads • Villas • Resorts • Gardens • Parks
