

80W Monocrystalline Solar Panel

High-efficiency 80W monocrystalline solar panel designed for various off-grid and grid-tied applications. Featuring durable construction and weather-resistant materials, it ensures reliable performance in various environmental conditions.

Product Overview

High-Efficiency Energy Solution

This 80W monocrystalline solar panel is engineered for high-efficiency energy conversion in both off-grid and grid-tied applications. Designed for durability and consistent power output, it is an ideal solution for battery charging, powering small devices, and supporting various renewable energy projects. Its robust, weather-resistant construction ensures reliable performance even in harsh environmental conditions, making it suitable for residential, commercial, and industrial use.

Technical Specifications

Rated Power

80 W

Power Output

Cell Technology

Monocrystalline

Suitable Applications

Off-grid systems, Battery charging, Small electronic devices, Residential, Commercial, Industrial

Construction & Durability

Build Quality

Weather-resistant • Robust frame • Durable construction
