

810W Impact Drill with 13mm Chuck

This impact drill is designed for drilling into various materials including wood, metal, and masonry. It features a powerful 810W motor and a 13mm chuck capacity.

Product Overview

High-Performance 810W Impact Drill

This versatile 810W impact drill is engineered for precision and power in demanding applications. Featuring a 13mm chuck capacity and variable speed control, it is capable of drilling through wood, metal, and masonry with ease. Its robust construction ensures long-term durability, making it an ideal choice for both professional contractors and serious DIY users.

Technical Specifications

Input Power

810 W

Power Output

Max Drilling Diameter	13 mm
No Load Speed	0-2600 RPM
Impact Frequency	0-40000 min-1

Logistics & Packaging

Packaging Details

Metric	Value
Case Quantity	10 PCS
Gross Weight	24 Kg
Net Weight	22 Kg
Packing Size	46x37x30 cm
20' Container Capacity	5500 PCS
