

810W Wood Planer

This 810W wood planer is a versatile tool for woodworking projects. It features a high-speed motor that allows for smooth and efficient material removal.

Product Overview

High-Performance Wood Planer

This 810W wood planer is designed for efficient and precise woodworking tasks, making it an essential tool for smoothing surfaces on doors, boards, and timber. Featuring a high-speed motor capable of 16,500 RPM, it ensures clean material removal and a professional finish. With adjustable depth settings and a robust construction, this tool offers the versatility and control required for demanding workshop environments.
